# The Town that Enchanted Gods and Celestial Maidens

Once upon a time,  
the kind and beautiful Princess Shitateru  
lived with her father, Lord Ōkuni, in a land called Izumo.  
In her quest to overcome the pain of the death of her  
beloved husband and separation from her hometown  
of Izumo, she soon arrived at the area that is now  
Yurihama's Lake Tōgō.

It is said that Princess Shitateru brought agriculture and  
safe child delivery methods to the land, and she came to  
be well-loved by the people there.

Once upon a time,  
a celestial maiden appeared atop Mount Ueshi  
and wed a youth from the village.  
However, she one day found her supposedly lost  
heavenly robes, and returned home to the heavens.  
Her husband and children were struck with grief.  
Her children would earnestly play their flute and  
drums, hoping the sound would reach their mother  
and bring her back.

There is something about the land around Lake Tōgō  
that has captured the hearts of all who visit since  
ancient times.

The local residents have taken great care to  
protect this land as they give thanks for the  
blessings of its nature, including the onsen hot  
springs and rich mountain greenery.

We invite you to come and enjoy walking around Lake Tōgō  
and the town that has benefited from its many favors.  
We hope you encounter the town's many charms that Princess  
Shitateru and the celestial maiden must surely still remember. (\*^\_^\*)

Gear to improve your walking experience tenfold!!

## Hats

## Nordic Walking Poles

Try out some fun gear at the walking rest stations!

## Shoes

Be sure to consider both functionality and design when selecting this walking necessity! Match them to your top for a fun vivid look!

## Essential Walking Tips

### 1. When choosing your shoes...

Wear shoes that you are accustomed to walking in. Be sure to break in any new shoes before going on a long walk!

### 2. When choosing your socks...

Rubbing can occur between toes as you walk, often resulting in blisters. To avoid this, 5-toed socks are recommended as an alternative to taping (as to not burden your other toes).

### 3. Adjust your walk accordingly!

When walking, pay attention to both external conditions (such as the weather) as well as what your body is telling you.

### 4. When taking a rest...

Remove your shoes and wipe off any sweat to keep your feet dry. In the event of excessive sweating, consider changing your socks.

### 5. Preventing blisters...

Before putting your socks on and heading out for a walk, it helps to tape your feet or use fabric duct tape on the bottom of your feet where blisters are likely to occur.

### 6. Using a backpack...

A backpack is recommended to allow you to keep both of your hands free, resulting in improved posture and stamina.

## Legend time

### Mount Ueshi ~ Home to the Celestial Maiden and the Legend of the Heavenly Robes ~

There lies a village called Ueshi to the south of Lake Tōgō. It is there where a celestial maiden descended from the heavens in a mysterious legend that is still told to this day.

#### The Bathing Celestial Maiden

Atop Mt. Ueshi lies a large boulder where celestial maidens would descend and hang their heavenly robes as they bathed.

One day, a young farmer from the village happened upon a maiden bathing there. Mesmerized by her beauty, he stole her heavenly robes and returned home.

Unable to return to the heavens, the celestial maiden found her way to the village. By fate, she came to the young farmer's home and the two were soon married.

#### Between Heaven and Earth

Before long, the couple gave birth to two adorable girls. Although they lived happily as a family, the celestial maiden still cried and longed for home.

#### Borne Away on the Breeze

When her husband was away one day, the celestial maiden learned that her robes were hidden in the attic. She immediately began to ascend to the heavens once she put them on, leaving behind her daughters who grieved and began to play their flute and drums, praying for their mother's return.
